ABOUT ME

During my weekends I spend time socializing, playing games, working out and hanging out with friends in groups.
I often spend by free time doing physical fitness for myself in order to improve my lifestyle. I have enjoyed creating projects for school to do with computing which encouraged me to start projects of my own to do with coding a game and it may take months however it is only focused on during my personal time and it will help me in order to gather new skills and knowledge about coding.
Whenever i lounge I spend time listening to music alongside other activities such as reading.
